Payment and implementation

Complete payment instructions and the committee decision record.

DIRECT PAYMENT EXPLANATION

The landlord accepts payments only through a tenant portal. The applicant must first create a temporary payer invitation, after which the finance team can submit payment directly without sending funds to the applicant.

COMMITTEE DECISION NOTES

Approve $2,000 toward the verified housing balance. The finance team should use the tenant portal after confirming the account identifier with the applicant. Keep the payment confirmation in the case file and notify the committee if the portal does not allow a direct third-party payment.

Need, risk, and applicant effort

Narrative answers are reproduced in full for committee and finance review.

SITUATION

The applicant recently completed a training program and is actively seeking full-time employment. A short-term income interruption created a housing balance that must be addressed before the stated deadline. The applicant provided the current account balance and instructions from the property manager.

RISK IF SUPPORT IS NOT PROVIDED

Without timely support, the account may enter formal collection and the household could receive a notice to vacate. The applicant has dependents in the household, so housing stability is the immediate priority.

APPLICANT EFFORT

The applicant used personal savings, completed temporary work, requested an extension from the property manager, and contacted family members for additional support. These efforts reduced the original balance but did not fully close the remaining gap.

URGENCY REASON

The property manager requires payment by September 30, 2026, to prevent escalation of the account.

PASTORAL CONTEXT

The applicant is actively connected to the community and has been consistent in service. The reported housing need is credible, current, and appropriate for committee consideration. Short-term support would materially stabilize the household while the applicant completes the employment search.

PASTOR COMMENTS

I support the request and recommend that payment be sent directly through the verified landlord portal. Please retain the receipt and payment confirmation with the committee record.

REVIEWER NOTE

The application demonstrates an immediate housing need and includes a clear explanation of the remaining financial gap. The applicant has already made a meaningful personal contribution, pursued additional income, and contacted the property manager to request flexibility. I recommend partial approval so the payment can be made before the stated deadline. Finance should confirm the tenant portal instructions directly before releasing funds. This complete note is intentionally long enough to verify that reviewer comments wrap naturally instead of ending with an ellipsis.

OVERRIDE REASON

The recommended amount is limited to the verified one-month housing gap and remains below the total amount requested.
